## Quick Change Gear

## Lathes

### 18-Inch Quick Change Lathe

Have all the improved features of the modern lathe, and some more too.

The feed can be set to automatically disengage in either direction instead of on the forward feed only. Rod and screw feeds can not be engaged at the same time. The lead screw is provided with a clutch so it need only be in motion when using the lathe for screw cutting. Rack pinion can be engaged or disengaged instantly if it is desired to chase a more accurate thread with the pinion out of mesh with the rack.

**40 quick changes of feed or threads** are instantly obtainable without the removal of a gear, shifting of lathe quadrant, or any parts other than the 3 fixed handles and knobs for making the changes. All gearing not partially, but completely, encased.

*Send for catalogue of five sizes*

10, 12, 14, 16 and 18 inch

**Champion Tool Works Company**  
2426 Spring Grove Ave., Cincinnati, Ohio, U. S. A.

*"It makes duplicate parts at the lowest cost per piece."*

## The Acme Automatic Multiple Spindle

is the pioneer Multiple Spindle and Single Drive Screw Machine.

The four stock spindles and eight tool positions provide for eight or more operations which are completed in the time required for the longest. A piece is finished at each quarter turn of the cylinder.

The Single Belt Drive lowers the investment, saves wear on the machine, is convenient for operator, and concentrates the power.

The practical development of these ideas is being shown daily by the number of Acmes used, the quality of the goods produced, and the unequalled rate of production.

## THE NATIONAL-ACME MANUFACTURING CO. CLEVELAND, OHIO

BRANCH OFFICES: NEW YORK, 77 White Street. BOSTON, 141 Milk Street. CHICAGO, 549 Washington Boulevard. DETROIT, 1222 Majestic Building. ATLANTA, Candler Building. Warehouses: New York, 77 White Street. CHICAGO, 549 Washington Boulevard.

## 125 : 75 :: The Lester : (The Other Kind)

One of our customers asked us for an estimate on a sample piece which they submitted to us. They were getting seventy five per hour from their multiple spindle machines. The Lester produced with ease one hundred and twenty five—we think, as the cat told the sewing machine, "That's going some."

*We would like to have your samples*

The High Reputation of  
**"Cincinnati" Shapers**  
Is Because of the Work They Do in the Shop

**24-in. Back Geared "Cincinnati" Shaper.**

This was long our ambition—now an established fact:

*1st: To build the best shapers, irrespective of price.*

*2nd: To build the best shapers so they could be marketed at a reasonable price.*

It required lots of capital and years of time and patient care to bring our shapers up to their present state of efficiency; then more money, time and care to equip our shop and organize our force for the most economical manufacture of high-grade tools.

The result is not a cheap tool—that isn't consistent with quality; but we believe we offer the most shaper value, the most actual working, metal-cutting value for the money than can be found in any line of shapers built.

*Our free Shaper Book tells how we do it; do you want one?*

**The Cincinnati Shaper Company**  
Colerain Ave. & Elam St., Cincinnati, Ohio

# 100 CISCO 14" LATHES

# Streit Pulley Machinery

Will REDUCE Cost on Your Pulleys

===== 60% =====

## Streit Pulley Lathe

Built in six sizes: 15, 20, 30, 36, 40 and 50 inch.

**THIS PULLEY LATHE** is designed for this special purpose and embodies every *time saving* feature possible.

Two tools working simultaneously from center in opposite direction.

Swiveling Table, setting tools at once for any crown desired.

Movable Tail Stock, facilitating quick change of work.

Special Face Plates and Drivers save cost of chucking.

Changes of feed made instantly. Lateral and cross feed.

Strong, Accurate, Rigid and Durable.

Easily Operated. Quick Adjustment.

Also adapted to gears, fly-wheels, drums, etc.

**The Cincinnati Pulley Machinery Co.**  
Cincinnati, Ohio

21-inch  
Standard Lathe

## A Complete Lathe At a Moderate Price

The New Haven Standard Moderate-Priced Lathes are made in sizes 18, 21, 24 and 28-in. swing, 8 to 18-ft. bed. Our 60 years of experience in making and marketing none but reliable machines is sufficient guaranty against any catch-penny devices. These Lathes are practical shop tools that exemplify the full purchasing power of the dollar.

Then there's our line of Improved Engine Lathes, from 24 to 65-in. swing, on which we have spared no pains to make them the best that money can buy. Our long experience, with an organization for economical manufacture, enables us to sell them at the right price for careful buyers.

*We're at your service, gentlemen; what will you have?*

**New Haven Manufacturing Co., New Haven, Conn.**

## Cincinnati Lathes

Endurance and suitability for constant use is vitally important to careful buyers. Literature gives details about their two kinds of **Feed Boxes, Double Wall Apron, 3 step or 5 step Cone** and other important features it pays to investigate.

**The Cincinnati Lathe & Tool Company**

2730-32 Spring Grove Avenue, : : : Cincinnati, Ohio

## A Busy and Profitable Tool

**The Extension Gap Lathe  
For large and small work**

A lathe that will handle ordinary work as economically as a smaller tool, and that at the same time will take large and long work which is beyond the capacity of the average lathe. It is a tool of splendid construction, with a number of special features that add to its handiness for all classes of lathe work. Belt or motor drive.

*Shall we send you complete description?*

**FAY & SCOTT,**

**Dexter, Maine**

Standard Engine, Chucking, Turret, Double Head Facing and Pattern Makers' Lathes; Lathe Turrets for any make of Engine Lathes.

## COMBINATION DRILL, CUTTER AND REAMER GRINDER

**STYLE BX. Weight 385 lbs.**

**For simplicity and accuracy** this machine is not equalled. No preliminary adjusting for grinding drills; range of work on Cutter Grinder equal to the much more expensive machines on market which do not grind drills; drills and cutters can be ground at same time by two operators without one interfering with the other; and the price is right.

## For Drilling With High Speed Steel

This new 24-inch swing High Duty Drill, with a capacity for drills from  $\frac{1}{2}$  in. to  $1\frac{3}{4}$  in., drives high speed steel drills to their limit in solid steel. Its strong, rigid construction is clearly shown in cut. Spur gears are used entirely, except 1 pair of 2 to 1 bevel gears, and everything is driven in a straight line, with the result that practically *all* the power is transmitted directly to the drill point. This machine is reasonable in cost and it easily excels all other types in efficiency. Details?

**The Foote-Burt Company,**  
Cleveland, Ohio.

**You don't have to shut down the Grant Rotary Riveting Machine when you want to speak to the operator. You can speak in a whisper and be heard.**

The machine illustrated here-with can be furnished for riveting  $\frac{3}{8}$ -in.,  $\frac{1}{4}$ -in. and 3-16-in. and under.

Absolutely perfect heads can be formed in one second, without distorting the metal or marring the work in any manner.

No springs to break or parts to crystalize, no incessant din, a boy or girl can operate the machine with ease.

*Send for catalogue*

**The Grant Manufacturing & Machine Co.**  
Bridgeport, Conn.

## For Saving Time and Labor

For grinding centers, reamers, cutters and dies; can be used in lathe, planer, shaper, or milling machine.

Bearings adjustable to wear and dust proof.

**Air Cooled**

Made in four sizes,  
1-4, 1-2, 1 and  
2 h. p.

Emery wheels  $4\frac{1}{2}$  to  
12 in. diam.

# T C

## Are the Best Tool Holders

This straight turning Tool Holder is reversible and can be used as a right or left straight and offset side tool. Chatter troubles done away with.

The above cut shows the best cutting off Holder ever made. This is reversible. In  $\frac{1}{2}$  dozen lots delivery charges prepaid.

**Wm. S. Nicholls Company**  
251 Broadway, New York

## The United States Turning Tool

is a "winner" for all around work. The head is low, cutters are of self-hardening steel and designed for rapid and economical work. It has a solid support on the Sides of the cutter—insures heavier cut than any other holder of the same size. Saves its cost several times in a single month.

*Send today for catalogue.*

**The Fairbanks Company**  
Springfield, Ohio

# Save Time and High Priced Steel By Using The Abrasive Metal Cutter

THIS MODERN MACHINE, with its thin "Abrasive" wheel, cuts  $\frac{1}{2}$  inch square air hardened steel in 10 seconds; 5-16 in. bars of high speed steel in 5 seconds; nickel, steel, or brass tubing, filled with rubber or woven wire, in 2 seconds. All this without drawing the temper or leaving a bur. As it cuts everything square and true, much material is saved, and as no grinding to shape is required, a saving of from 15 to 30 minutes time will be made on each cut.

A comparison of this method and records with those of your own shop, will make you realize what a substantial saving this rapid metal cutter would make possible.

*You can't stop a loss too quick;

Power Saws and Drill Presses

## Reduce Your Steel Cutting Costs and Increase the Capacity

**The Right Machine, with the Right Saw and  
the Right Teeth, Does the Trick**

After all, its very simple. Our No. 54, fitted with a thin saw, and driven at a speed that gives it the highest cutting efficiency, may be a revelation to you when it comes to consider cutting costs. Doing it rapidly and with the least possible waste of material, explains its power to save you money. Our folder contains details; let us send it to you.

## Your Saw will do More Work

**When the Teeth are Shaped Correctly**

This machine does it automatically. While sharpening, it also bevels every other tooth on opposite sides, giving it the relief which prevents clogging, and insuring fast work. Will sharpen metal cutting saws from 12 in. to 20 in. diameter. Doing more work at less expense means a substantial reduction in cost.

*After a careful comparison, we know  
you'll be glad to order ours quick*

**The Highest Economy and Accuracy**  
is easily obtained with  
**The American Drill Grinder**

**ECONOMICAL** because it grinds the drills *right* in practically an automatic manner, enabling them to stand a high rate of feed, to cut fast without breaking, and to give the longest possible service between grindings.

**ACCURATE** because, being ground correctly, the drills naturally produce true, straight holes.

The secret of correctly ground points lies in keeping the cutting edge vertical, which insures the right clearance. The automatic lip rest which does this on the "American," is a patented improvement. This, with other distinctive features, makes it the only really scientific machine for grinding perfect points.

*Don't let drag till tomorrow  
what you can drill today—be "American"*

# Burke's Bench Miller

No. 4 Milling Machine

## A Seasoned Tool

The tool to buy if you want  
extreme accuracy and perman-  
ent alignment five years hence  
as well as now. In making  
this miller the greatest care is  
taken thoroughly to season  
all castings both before and  
after machining. We carry  
these frames and parts from  
six to eight months after work  
begins on them before the  
final finishing is done. The  
result is a tool that is accurate  
and will stay accurate as long  
as you use it. For precision  
work it has no equal.

Longitudinal feed, 8 1/2 in.;  
traverse feed, 4 in.; verti-  
cal motion of knee, 8 1/2 in.;  
table surface, 30x16 inch.

**BURKE MACHINE CO.**  
Conneaut, Ohio

# Special Wood Working Tools

## For Pattern Shops

Machines selected for their precision, and adjustability. Built like machine tools, and designed primarily for pattern shop service.

### "West Side" Band Saw

Steel wheels, which can neither break, warp, twist or spring; under cut hubs; self-oiling bearings; brass-bushed loose pulley; tilting table; all adjustments made by operator without leaving his position. A band saw widely known for its superiority of design and construction.

### Universal Double Saw Arbor

The best word in saw tables for accuracy and convenience. Gauges and adjustments for every possible requirement. A notable improvement upon a type of saw table conceded to be indispensable in every pattern shop.

### Porter 20-Inch Jointer

The highest grade jointer or hand planer in market. Patented guard and safety cylinder; specially grooved tables.

We outfit pattern shops complete, guaranteeing the accuracy and efficiency of every tool. Whether you want a full equipment or a single machine, you will find our service helpful.

*We shall be pleased to have you consult us*

## Chicago Machinery Exchange

Manufacturers' Exclusive Representatives

159-161 North Canal Street, Chicago

Can furnish used machines, if desired, carefully rebuilt in our own shops and fully guaranteed.

# WE PREDICT

that all progressive manufacturers producing

## **Spur, Worm and Spiral Gears**

will eventually be compelled to use

## **The New Hobbing Process**

Gears produced therewith *cost less to make*, are *theoretically correct*, and, what is most important,

## **Run Absolutely Noiseless**

This means doing away with all objections existing against gear drive and—transmission, even when used at a very high rate of speed.

Manufacturers of machinery of all descriptions, **Automobiles, Elevators, Gear Cutting shops** cannot afford to be without our

## **Original S. & S. Auto Gear Hobbing Machines**

They  
will  
improve  
and  
perfect  
your

Dubuque, Iowa, U. S. A.

# You can get Oil from Your C

## Cheaper than from the

No. 400—Capacity: 2 Bushels

We also furnish our smaller Oil Extractors with or without stand for  
and can fit any size Extractor with waste-cleaning attachment if desired.  
for cost of operation; but **they're all money makers.**

*Why not begin reducing your oil bill right away; we're ready with description,*

**Curtis Oil Extractor Company,**

**95 I**

---

# Your Chips and Shavings from the Oil Man

## The Curtis Ball Bearing Oil Extractor Takes it Out

This machine pays for itself so quickly that it can hardly be called an investment—just a money-making tool that drops dimes and dollars into your pocket from the moment it starts. You can use over and over most of the oil used to lubricate your tools, which it extracts at only a fraction of the cost of fresh oil from the barrel, and it's just as good.

### Pertinent Points

Capacity, two bushels—the largest machine of its kind made.

Power required, 2 h. p.; *labor, only one man.*

Seamless pan, of 5-32 in. sheet steel.

A hoist raises and lowers pan.

Has powerful brake; is fitted with sight feed oiler; has place for pail to catch oil.

Easy to operate and lasts a life-time.

Can furnish with stand for motor drive (with belt), either with or without motor.

Can also furnish with *steam attachment for cleaning waste*—a good thing if you want it.

**And we make two smaller sizes.**

or with stand for motor drive, and with or without motors, attached if desired. The largest machines do the most work.

For full description, prices, references and machines—three sizes.

---

## 95 Foster St., Worcester, Mass.

---

# The Watson-Stillman Hydraulic Shop Jack

renders much labor unnecessary

The wheels on the base, and the handle on the cylinder facilitate moving the jack quickly and without the exertion of much energy. The wheels touch the floor only when the jack is tilted.

This jack can be laid flat and worked horizontally to the entire lifting length of the ram. For lifts from near the ground, an independent steel claw (not shown) may be used. The claw can be removed at other times, so the jack is light for ordinary work.

This jack has the usual Watson-Stillman characteristic of strength, and is safe under a considerably greater load than the rating.

Made in eleven sizes and up to 50 tons capacity. If it won't do your work, you'll find one among our 450 types and sizes that will.

*Ask for Jack Catalog No. 68*

### **When you install motor drive in your plant—get all the advantages**

Why be satisfied with the ordinary type of motor which *almost* gives the desired results when you can get a *real* adjustable speed motor that *does* give the best possible results—the kind you want.

### **Reliance Adjustable Speed Motors**

will give you all the usual advantages obtained with ordinary motors, such as greater cleanliness, better light, clear overhead space, flexible arrangement of machines, absence of belt and line shaft accidents, ample power at the cutting tool, and the greatest possible power economy.

What is of added importance on your machine tools is the really accurate speed adjustment throughout wide and unbroken ranges in speed. The changes are smooth and gradual—no steps or jumps. You get the right speed for any operation on all kinds of work.

This is all accomplished easily and quickly by a simple mechanical method inside the motor—*no electrical controller is needed.*

### **Reliance Service**

We are not electric motor manufacturers in the ordinary sense of the word but are specialists in complete motor equipments for Machine Shops. We furnish not only the motors but are also prepared to design and manufacture all brackets, gears, etc., for converting your belt driven tools to motor drive.

If you have work on which motors can be used to advantage our Engineers will gladly make a careful investigation of your needs. All we ask is an opportunity to show you what we have to offer as we are confident that sooner or later you will be convinced of the superior merit of Reliance Motors.

*Our Folder No. 10-L is interesting reading for machine tool users.*

*Ask us to send a copy*

We manufacture Reliance Constant Speed Motors for either alternating or direct current service.

Powerful  
Convenient**

Furnished with either standard 5-step cone or with 3-step cone double-back-geared, **carrying a wide belt**, with 18 speeds and wide feed range.

**GREAVES, HLUSMAN & CO**  
Cincinnati, Ohio, U. S. A.

## WHEN YOU INQUIRE

of advertisers herein, won't you kindly remember to say somewhere in your communication that the inquiry comes from Hitchcock's Machine Tool List? Advertisers are human; they like to know that the medium in which they spend their money is received and consulted by machinery users. Not being mind readers, they can only know this when you tell them, and if you neglect to tell them, the Tool List is deprived of credit for the service it has rendered.

There are several tapping operations which you are now doing with solid taps on your Drill Press or Turret Lathe where

## **Geometric Collapsing Taps**

would do the work better, and in half the time.

**Geometric Collapsing Taps** are as rigid as solid taps while cutting, but collapse their chasers automatically at the end of the cut, and there's no reversing required to back them out.

*We will be glad to tell you more  
about them, if you will tell  
us your requirements*

**The Geometric Tool Co.**  
New Haven, Conn., U. S. A.

# Improved Portable Valve Seat Rotary Planing Machine

WHEN YOU come to see the remarkable saving in time, (and money) this portable tool makes possible, you will no longer think of moving the house to the carpenter's shop for repairs—it doesn't pay.

## Built in Six Sizes

THIS ACCURATE, handy tool, though at first designed to face off locomotive valves, was soon used on a large variety of other work, and gave perfect satisfaction. Planes any surface up to 42 in., diagonal measurement, and is readily attached to almost any shape. The machine work is perfect, requiring no filing or scraping afterwards, and there is no breaking of port edges.

*Write for our comprehensive Catalog of Portable Tools;  
it's a guide to many good things*

## Second-Hand Machinery.

Lists of second-hand machinery, either for sale or wanted, will be published under this heading at the rate of **40 cents a line**, across the page, each issue, with a minimum charge of **\$4.00**. Sub-headings are counted as one line, but the name and address of advertiser are not included in the space charged for. Prices and full descriptions of the machines listed will be furnished by the parties offering them for sale. If you do not find what you require, use the slip inclosed with each book to make known your wants to the publisher.

### FOR SALE BY

**Wm. E. Gang Co., 1543-1547 Queen City Ave., Cincinnati, Ohio.**

Engine, boiler and pump, second-hand.

Engine and boiler, including one 9x16 Lane & Bodley engine, left hand, self contained, band wheel 54x12, shaft 4 7-16x28, governor with automatic stop, throttle valve, s.-f. cylinder lubricator, etc.; one vertical submerged tubular boiler, 48x120, with base, grates, doors, etc.; coil of National type heaters, with piping fittings and valves, 3 in. B. P. valve, tee and plug; Laidlaw-Dunn-Gordon 3x2x3 duplex piston pump, brass fitted.

Gear cutter, 30 in. G. & E. regular type automatic, for light and medium classes of work, with automatic oil pump, sub-base, 4 step cone, complete set of change gears, work and cutter arbors and centers; excellent condition.

Radial drill, 2 1/2 ft. W. E. G. Co., with plain box table and speed box, later design than our regular machine; used in our shop; good condition.

Turret lathe, 18 1/2 in. Drees & Mueller, with power feed, friction back gears, oil pan, pump and piping, cut-off rest, longitudinal feed, 2 9-16 in. hole thru spindle, 3 step cone for 3/4 in. belt, 2 friction pulleys on c. s.; good condition.

## SECOND-HAND MACHINERY

### FOR SALE BY

**The H. A. Stocker Machinery Co., 565-72 W. Randolph St., Chicago**

#### TURRET LATHES AND SCREW MACHINES

- 2x24 Jones & Lamson flat turret, single drive, geared heads, latest type, including attachments, good condition (2).  
 2x24 J. & L. flat turret, 1896 pattern, outfit of tools, splendid working order.  
 20 in. Fay & Scott universal turret, complete, practically good as new.  
 22 in. No. 4 Potter & Johnston double turret, used less than a year.  
 21 in. Gisholt turret lathe, new in 1907, good order.  
 24 in. Cleveland auto. screw mch., bought new in 1907, good working cond.  
 1 in. Cleveland automatic screw machine, present pattern, good order.  
 No. 66 Brown & Sharpe automatic, latest pattern.  
 No. 51 National-Acme automatic screw machine, latest pattern, never used.  
 1 in. Brown & Sharpe automatic screw machine, 1891 pattern.  
 No. 2 Brown & Sharpe screw machine, wire feed, automatic chuck.  
 No. 4 Bardons & Oliver, 1 1/2 in. wire feed capacity.

#### MILLING MACHINES.

- No. 4 Brown & Sharpe, universal.  
 No. 1 Cincinnati universal, 1902.  
 No. 1 Garvin universal.  
 No. 2 Brown & S., plain, geared fds.  
 No. 1 Brown & S., plain, geared fds.  
 No. 24 Brown & Sharpe, plain.  
 No. 18 Kempsmith plain, back gd.  
 No. 13 Kearney & Trecker, geared feeds, geared head, single pulley drive.  
 No. 13 Garvin, plain, dividing head, vertical attachment.  
 No. 12 Garvin, plain, with vise.  
 No. 2 Cincinnati, plain, 1900 pattern.

#### GEAR CUTTERS

- 50 in. Gould & Eberhardt auto., for spur, bevel and skew gears, good as new.  
 42 in. Gould & Eberhardt auto., for spur gears only, 1899 pattern, good order.  
 26 in. No. 3 Brown & Sharpe automatic, fine condition.  
 Grant-Lees worm gear hobbing machine, just like new.  
 Dwight Slate automatic pinion cutter.  
 No. 1 Whiton, spur and bevel.

#### LATHES

- 56x20 New Haven, triple geared.  
 32x12 Schumacher & Boye.  
 30x16 Flather.  
 24x18 Fitchburg.  
 24x16 Fitchburg.  
 28 Lathes, 10 to 18 in. swing, 4 to 12 ft. bed, assorted makes.  
 24x10 Lodge & Shipley, motor dr.  
 22x10 Lodge & Davis.  
 20x14 Lodge & Shipley, quick change gear, fine condition.  
 48x19 Johnson, triple back geared.

#### RADIAL AND UPRIGHT DRILLS

- 6 ft. Bickford, gear box drive.  
 5 ft. Bickford, gr. box & motor dr.  
 5 ft. Western, cone drive, universal.  
 4 ft. Bickford, cone drive.  
 About 20 drills, 24 in. and smaller.  
 34 in. Barnes, sliding head, back geared, power feed.  
 28 in. Snyder, sl. hd., b. g., p. f.  
 28 in. Prentice Bros., sl. hd., b. g., p. f.

#### PLANERS.

- 48x48x20 Bellmer, 4 heads, quadruple geared, fine condition.  
 48x42x12 Pond, 2 heads, rebuilt.  
 36x36x12 Gray, 2 hds., A-1 cond. (2).  
 36x36x12 Cincinnati, 2 heads., just about good as new.  
 32x32x14 Flather standard and open side, 2 heads, fine condition.  
 30x20x10 Flather, 2 hds., 4 speed dr.  
 30x30x12 Gray, 2 heads, fine.  
 30x30x8 New Haven, 1 head.  
 7 smaller planers.

#### SHAPERS.

- 20 in. Cincinnati, back gd., crank.  
 20 in. Smith & Mills, geared.  
 18 in. Fitchburg, trav. head.

#### KEYSEATERS.

- 60 in. Morton, portable.  
 48 in. Morton.  
 No. 66 Baker Bros.

#### GRINDING MACHINES.

- 18x96 in. Norton plain, complete, little used.  
 Milwaukee wet tool grinder.  
 Whitney wet tool grinder.  
 Sellers tool room grinder for lathe, planer and shaper tools, also twist drill attachment.  
 No. 2 Brown & Sharpe surface grinder, with magnetic chuck  
 No. 1 Landis universal, fine order.  
 No. 16 Landis plain, splendid condition.

## SECOND-HAND MACHINERY

| Hammer, steam, single frame, 2,000 lb. Monighan. | Press, toggle, No. 1½ Bliss.      |

Our latest "Yellow Book" is ready. You can have it regularly if you'll drop us a postal card.

## SECOND-HAND MACHINERY

### FOR SALE BY

**Niles-Bement-Pond Company, 111 Broadway, New York.**  
**Located at Chicago, Boston and New York.**

#### LATHES.

12x6 Champion, compound rest.	21x6 Bridgeport, turret boring.
14x6 F. B. Miles, compound rest.	21 and 48 in. Harrington, gap, boring and chuck.
16x6 speed lathe.	21x8 Star, turret carriage.
14x5 American, square arbor.....\$ 50	22x16 Fitchburg.
16x6 Fitchburg, compound rest.	32x10 Pond, compound rest.
18x6 Blaisdell, rise and fall rest.	
19x6 D. W. Pond, turret tool post.	

#### TURRET MACHINERY.

1 in. No. 1 Garvin, wire feed.....\$125	1 in. No. 0 Hartford, automatic.....\$25
1 in. No. 0 Pratt & W., wire feed.	1x1 in. National Acme, 4 spindle automatic.....150
1 in. No. 1 Costello, wire feed.....\$165	1 in. No. 1 Spencer, single turret, automatic.....150
24 in. Conradson, semi-automatic.	21-32x1 1/2 in. No. 2 Brown & S., automatic.....250
28 in. size J, Gisholt.	
1 in. No. 00 Hartford, Pratt & Whitney, automatic.....275	

#### SHAPERS AND PLANERS.

15 in. Hendey, friction.	26x23 in.x16 ft. Ferris & Niles, 2 hds.
18 in. Cincinnati, dbl. hd., traverse.	30x30 in.x24 ft. Sellers, 2 heads.
17x17 in.x4 ft. Whitcomb.	32x32 in.x14 ft. Niles.
26x26 in.x6 ft. Pond.	48x48 in.x16 ft. Belmar Eames, 4 hds.

#### DRILLS.

9 in. No. 1 Pratt & Whitney, bench.	6ft. 10 in. Niles No. 2, semi-univ.
13 in. No.1 sensitive friction, 110 volt, d. c. motor.	7 ft. 6 in. Niles No. 5, full univ.
30 in. Gould & E., sliding head.	10 in. 2 spindle Slate, sensitive.
36 in. Gould & E., sliding head.	12 in. 2 spindle Foote-Burt, sensitive.
48 in. Niles, sliding head.	14 in. 3 spindle Garvin, gang.....\$ 80
Prentiss port. univ. rad., cap. 2 in.	14 in. 4 spindle D. P. N.....75
3 ft. Gair, plain radial.....\$200	17 in. 4 spindle J. & L., gang... 75
4 ft. 6 in. Barr, plain radial.....200	14 in. 6 spindle No. 3 Garvin, gang.
5 ft. Niles, semi-universal.	6 spindle special Langelier.
5 ft. 6 in. Niles, outboard col.	No. 10 10 spindle Pratt & Whitney, cap. 1 15-16 in., 220 v., d. c. motor.

#### BORING MILLS.

36 in. No. 2 Brown & S., vert. turret.	Nicholson & Waterman boring machine, 3 in. spindle.
37 in. Bullard, vertical, 2 heads.	Bement & Son horiz., 2 1/2 in. spindle.
21 in. Pond, 3 heads.	Stearns 96 in. special cylinder borer.
Kelly horizontal, 2 in. spindle.	

#### GRINDERS.

14x2 in. Gould & E., water tool.....\$ 25	Diamond polishing stand.....\$ 15
18x2 in. Pedrick, double wet tool 20	No. 0 Northampton polishing jack.
24x3 in. Pedrick, double wet tool 75	Swing frame grinder and polisher.
20x1 1/2 in. Ransom, water tool.	Diamond.....\$ 45
3 in. Sellers drill grinder.	No. 1 Blount.

#### MILLING MACHINES.

No. 2 Brown & Sharpe, universal, 20x10x16 in.	No. 4 1/2 Becker-Brainard, plain, 24x7x16 in.
No. 2 Garvin, plain, 31 1/2x5x16 in.	Garvin single spindle profiler, table 21x24 in.....\$200
No. 4 Brown & Sharpe, universal, 40x7x2 in.	1 in. Garvin hor. screw slotter.....40

#### MISCELLANEOUS.

Arbor press, power, 3 in. screw.....\$ 50	Planer vise, 16x3 1/2 in.....75
Bicycle tube hand rolls.....20	Planer vise, 10x2 in., swivel base 30
Brazing furnace, gasoline, 24x16 in.	Press, bench, No. 0 Stiles pattern.
Cut-off machine, 2 1/2 in. Betts.....\$ 75	Punch and shear, combination, power, 1 in. capacity.....\$ 25
Cut-off machine, 3 1/2 in. H. & R.....50	Spiral spring winding mche., Shuster.
Hack saw, No. 2 Robertson.	Tapping machine, horizontal, No. 1 Garvin.
Hammer, power, 350 lb. Lingle.	Vulcanizer, rubber, Hartford, small.
Forging machine, 2 in. Blakesle.	
Iron forge on legs, 28x13x8 in... 25	

## SECOND-HAND MACHINERY

### FOR SALE BY

**Marshall & Huschart Machinery Company,**

**11-13-15 N. Canal St., Chicago. 45-47 S. Capitol Ave., Indianapolis.**

**908 N. Second St., St. Louis. 309 Railway Exc., Milwaukee.**

#### BOLT CUTTERS.

- 1½ in. Webster & Perks, double head.
- 1½ in. Economic, single head, complete, almost new.
- 2 in. Acme, single head.

#### BORING MILLS.

- No. 1 Binsse horizontal, 2½ in. bar.
- 34 in. Colburn, swivel turret head, geared feed, 3-jaw combination chuck.
- 42 in. Bullard, single turret head, 3-jaw combination chuck.
- 10-16 ft. Niles extension, two regular heads, one extension head.
- 14-20 ft. Niles extension, with two regular heads on cross rail.

#### DRILLS.

- 5 ft. Economic plain radial, cone drive, plain table.
- 4ft. No. 1 Bickford, full universal, cone drive, plain table, tapping attachment (equal to new).
- 20 in. W. F. & John Barnes, stationary head, wheel and lever feed.
- 28 in. Aurora, sliding head, p. l., a. s., b. g.
- 40 in. sliding head, hand wheel feed.
- Small Barnes friction drive.
- Two spindle rim drill.

#### GEAR CUTTERS

- D. F. Whiton 36 in. automatic, spur gears only (used two months).
- 40x9 in. Gould & Eberhardt, spur gears only.

#### GRINDERS.

- No. 50 Saxon, cylinder.
- No. 3-A Landis universal, all regular accessories.
- Barnes water tool.
- Garvin cutter grinder.
- No. 2 Brown & Sharpe, cutter.
- No. 7 Banson double emery.
- American twist drill.

#### HAMMERS.

- 100 lb. Mayer Brothers "Little Giant" trip hammer (new).
- 800 lb. Monighan, single frame, steam.

#### LATHES.

- 16 in. x 8 ft. Flather, plain rest, hollow spindle, taper attachment.
- 18 in. x 6 ft. Lodge & Davis, hollow spindle, plain rest, 3 jaw chuck.
- 18 in. x 8 ft. American, compound rest, hollow spindle, quick change gear, two chucks fitted.
- 26 in. x 12 ft. Reed, hollow spindle, compound rest, chuck.
- 28 in. x 26 ft. Ames, solid spindle, plain rest, chuck.
- 42-61 in. x 16 ft. Ames, triple geared, compound rest, power angular feed.

#### TURRET LATHES.

- 28 in. Pond, rigid turret.
- 42 in. New Haven.
- 2x24 in. Jones & Lamson, flat turret.
- No. 4 Windsor, back geared, cut-off rest, oil pan, chuck, countershaft.

#### MILLING MACHINES.

- Hilles & Jones, vertical.
- Small Kempsmith, plain, hand and power feed.
- 15 in. x 8 ft. Keystone slab miller.
- No. 3 Becker-Brainard, plain, gd. fd.
- No. 3 American Tool Works, plain, power longitudinal and cross feeds.
- No. 5 Becker, vert., all power feeds.

#### PLANERS.

- 26x24x6 Ohio, one head.
- 26x24x6 Powell, one head.
- 24x24x7 New Haven, one head.
- 26x27x7 New Haven, one head.
- 27x27x8 Fitchburg, one head.
- 30x30x8 Whitcomb, one head.
- 36x36x8 Enterprise, one head.
- 36x36x10 Pratt & Whitney, one head.

#### SHAPERS.

- 18 in. Juengst.
- 20 in. Rockford, back geared, table support, vise.
- 24 in. Steptoe, shifting belt.
- 24 in. Walter Bros.
- 32 in. Steptoe, triple geared.

#### MISCELLANEOUS.

- Keyseater, Morton.
- Keyseater, No. 2 Baker (Colburn).
- Slotters, 10 in. Putnap, with circular table.

## SECOND-HAND MACHINERY

### FOR SALE BY

**Wm. C. Johnson & Sons Machinery Co.,**

**210-212 Washington Ave.**

**St. Louis, Mo.**

#### LATHES.

16x6 Fitchburg.	30x12 Lodge & Shipley.
24x14 Lodge & Shipley.	48x34 Niles, triple geared.
24x12 New Haven.	50x16 New Haven, triple geared.
25x26 New Haven.	

#### DRILLS.

22 in. sliding head.	30 in. Lodge & Davis.
24 in. Cincinnati, with tapping att.	5 ft. plain radial.
28 in. Barnes.	6 spindle Quint.

#### PLANERS AND SHAPERS.

24 in. Gould & Eberhardt shaper.	30x30x8 Whitcomb planer.
28 in. Smith & Mills shaper.	36x36x12 New Haven planer.
26x26x6 New Haven planer.	

#### PUNCHES AND SHEARS

7 in. throat No. 6 Queen City punch, capacity $\frac{1}{2}$ in $\frac{1}{2}$ in.	18 in. throat No. 5 Long & A. punch.
	48 in. throat heavy splitting shear.

#### MISCELLANEOUS.

Bending rolls, 8 ft., drop end, 7 in. diameter.	Column facing lathe, double head.
Bending rolls, 8 ft., 10 in. diameter.	Hammer, 90 lb. Justice.
Bending rolls, 10 ft., drop end, Wickes Bros.	Keyway cutter, No. 6 Morton.
Boring mill, 34 in. Colburn.	Pipe machine, 12 in. Bignall & Keeler. Press, No. C-2 Ferracute.

### FOR SALE BY

**Western Machinery Co., - 6th & Baymiller Sts., Cincinnati, O.**

#### LATHES.

14x5 Bradford, p. r., hol. spindle.	21x9 Pratt & Whitney, compound rest, hollow spindle.
14x6 Silk-Anderson, compound rest, hollow spindle, taper.	22x12 Munzer, c. r., hol. spindle.
15x5 Warner & Swasey brass lathe.	28x18 Niles, compound rest & taper.
20x14 Steptoe, r. & s., \$190.	60x22 American, triple grd., hol. spdl
21x8 Pratt & Whitney, c. r., hol. spdl.	8x32 in. Pratt & Whitney, turret.

#### DRILLS AND BORING MILLS.

14 in. Cincinnati, sensitive.	3 spindle Davis & Egan, sliding hds.
18 in. Reed, lever feed.	6 spindle Foote-Burt, heavy.
20 in. Hamilton, lever feed.	*Post drill.
21 in. Aurora, worm & lever fd., new.	7 ft. Niles double head boring mill.
25 in. Hamilton, b. g. p. f.	

#### PLANERS AND SHAPERS.

24x24x6 Lodge & Davis.	60x60x12 Lather, 3 heads.
26x26x8 Pratt & Whitney.	14 in. Steptoe, single geared, new.
30x10 open side.	20 in. Steptoe, back geared.

#### MILLING MACHINES.

No. 1 Brown & Sharpe, univ., div. hd.	No. 4 1/2 Becker-Brainard, pl. b. g. (2).
No. 3 Becker-Brainard, vertical.	No. 3 Garvin, hand.

These millers are first-class machines.

#### MISCELLANEOUS.

Band saw, 20 in.	Lathe chucks (3).
Centering machine.	Plate planer, 20 ft. Niles.
Chain blocks, assorted (6).	Punch and shear, single, Newbold, weight, 6500.
Emery stand.	Punch and shears, old style, $\frac{1}{2}$ x $\frac{1}{2}$ in., \$110.
Forming machine, No. 00 Brown & Sharpe, automatic.	Slotter, 16 in. Hewes & Phillips \$190.
Gasoline pumping outfit, $\frac{3}{4}$ h. p.	Surfacer, double, 26x12 in. Egan.
Glue boiler, 5 gal.	
Hack saw, power.	

Cash paid for second-hand metal working machinery.

32 in. upright, Pond.  
28 in. upright, Snyder.  
25 in. upright, Barnes.

#### MISCELLANEOUS.

Bolt cutters, 1 & 1½ in. Acme.  
Cutting-off machine, 3 in. Pratt & W.  
Gap turret lathe, 32-50 in. Gisholt.  
Gap turret lathe, 32 in. American.  
Gap turret lathe, 27 in. American.  
Gap turret lathe, 24 in. Gisholt.  
Gas engine, 6 h. p., White & M.  
Gear cutter, 20 in. Gould & E.  
Grinder, auto. surface, Walker.  
Grinder, univ. cutter and tool, Cin'ti.  
Keyseater, 12 in stroke, Newton.  
Miller, Lincoln style, Garvin.

Pipe machine, 4 in. Philadelphia.  
Screw mche., 24 in. P. & W., wire fd.  
Slotters, 16 in. Sellers; 12 in. Bement.  
Shaper, crank, 26 in. Prentiss.  
Shaper, friction, 20 in. Putnam.  
Shaper, crank, 15 in. Gould & E.  
Shaper, 14 in. Fitchburg, traveling hd.  
Slab miller, 3 in. x11 ft. Newton.  
Slab miller, 22 in. x5 ft. Ingorsoll.  
Sprue cutter, No. 172 Bliss.  
Steam hammer, 4,000 lb., Bement.  
Steam hammer, 1,250 lb., Bement.

#### RAILROAD TOOLS.

Driving wheel lathe, 70 in. dble hd.  
Car-wheel grinder, double head.

Double end axle & centering mche.  
Dbl. hd. axle lathe, 27 in. Bridgeford.

#### BRIDGE & BOILER TOOLS.

10 ft. bending rolls, hinged housing.  
6 ft. bending rolls, solid housing.

24 in. punch & shear, single, heavy.  
9 in. punch & shear, Hilles & Jones.

## SECOND-HAND MACHINERY

### FOR SALE BY

**Don M. Osborne, • 719 St. Clair Ave., N. E., Cleveland, Ohio**

#### HAMMERS.

500 lb. Bement, steam, single frame. | 5,000 lb. drop, friction board, Toledo,  
2,000 lb. Bement, steam, dbl. fr. \$750 | for sheet metal work.

#### LATHES.

22 in. American turret lathe, 4½ in. hole thru spindle, with pump, scroll  
chuck and Reeves variable speed countershaft.  
25 in. x 10 ft. LeBlond heavy turret lathe, with power feed turret on shears,  
three step cone, double back geared quick change, 24 in chuck, heavy car-  
riage with compound rests.  
30 in. x 31 ft. Ohl & Co., triple geared, 25 ft. between centers, comp. rests.  
35 in. x 12 ft. Hughes & Phillips, triple gear, compound rest, \$250.  
48 in. x 24 ft. Michel, triple back geared, compound rest, 18 ft. centers.  
60 in. x 42½ ft. Hughes & Phillips, tr. gd., c. r., 33 ft. between centers.  
60 in. x 45 ft. Roach, triple geared, 35½ between centers, compound rest.  
66 in. x 35 ft. Hughes & Phillips, triple geared, 26 ft. centers, 48 in. raised to 66 in.  
64 in. x 60 ft. Thomas Shanks & Co., Glasgow, double lathe, 50 ft. between  
centers; one end swings 64 in., other 50 in.; 2 head stocks, 2 tail stocks and  
2 carriages; triple back geared at both ends; one carriage has screw feed full  
length of bed, the other has double tool post and feeds half length of bed;  
will sell cheap.  
120 in. x 18 ft. gap lathe, triple geared, compound rest.

#### PLANERS.

24x24x6 Pease, single head. | 96x96x20 Betts, single head, good or-  
der, cheap.

#### SLOTTER.

Slotter, 24 in. Niles, actual stroke of bar 60 in., for outside work; excellent  
condition, price reasonable.

If you have used machine tools for sale or exchange, advise me.

### FOR SALE BY

**J. W. Wright & Co., • 2nd and Morgan Sts., St. Louis, Mo.**

#### LATHES.

18x10 Mueller, plain rest. | 20x12 Gray, compound rest.  
18x10 Bradford, compound rest. | 28x12 Fifield, compound rest.  
19x10 Gray, compound rest. | 29x12 Reed, compound rest.  
19x12 Gray, compound rest. | 42x15, compound rest.

#### PLANERS AND SHAPERS.

15x15x36 in. New Haven. | 24 in. Steptoe, triple geared.  
24x24 in. x 8 ft. Pease, 2 heads.

#### PRESSES.

C-2 Ferracute, power. | No. 51 Swaine, power (3).  
No. 33 Swaine, power. | Small presses, power (2).  
No. 35 Swaine, power (3). | No. 3 Swaine, foot (7).

#### SCREW MACHINES.

No. 5½ Bardons & Oliver, 2½ in. capacity, A-1.

#### DRILLS.

28 in. Sibley, back gear, power feed. | 3½ ft. Fosdick, radial.  
34 in. upright, back geared, power fd. | 4 ft. Gang, radial.

#### MOTORS.

5 h. p. Wagner, a. c., 220 v., 60c., sin-  
gle phase. | 10 h. p. Fairbanks, a. c., 220 v., 60c., 3p.  
5 h. p. Ft. Wayne, a. c., 220 v., 60c., 3p. | 20 h. p. Ft. Wayne, a. c., 220 v., 60c., 3p.  
5 h. p. Fairbanks, a. c., 220 v., 60c., 3p. | 30 light dynamo.

#### MISCELLANEOUS.

Blower, No. 2 Roots.  
Bolt cutter, 1½ in. National, double.  
Boring mche., cylinder, No. 1 Barrett.  
Cock grinder.  
Compressor, 22x26½x24 in., Inge, soil.  
Cutter grinder, No. 3 Brown & S.  
Floor grinder, No. 2 Safety.  
Gear cutter, Standard, automatic.  
Hack saw, power.  
Hammer, power, No. 4 Perfect.  
Punch and shear, combination, Ohl.  
Vise, No. 3-F., B. & S.

## SECOND-HAND MACHINERY

### FOR SALE BY

**Beronio & Palmer, 221 Jefferson Ave., - - Memphis, Tenn.**

#### AIR COMPRESSOR.

12x10x6x12 Laidlaw, Dunn & Gordon, straight line, 2 stage, made for 300 lbs. pressure to the square inch; good as new.

We deal in all kinds of second hand machinery.

### FOR SALE BY

**The E. L. Essley Mch Co., 555-557 Washington Blvd., Chicago, Ill.**

#### DRILLS.

2 spindle Burnham, sensitive,  $\frac{1}{2}$  cap.  
4 spindle 18 in. W. F. & J. Barnes, gang, power feed, automatic stop.  
4 spindle No. 3 Garvin, multiple.  
6 spindle No. 3 Garvin, multiple.  
28 in. Hamilton, sliding head, back geared, power feed.

Baker Bros. upright high speed drill presses, complete, nearly new, (2).  
22 in. Bickford, sliding head, overhauled.  
28 in. Moline, sliding head upright, nearly new.

#### BORING MILLS.

37 in. Streit pulley boring machine  
37 in. Baush & H., 2 heads, pl. table.

Hoefer, horizontal boring, drilling and milling machine, wt. 3,000 lbs.

#### ENGINE LATHES.

14x7 Blaisdell, taper attachment.  
16x6 Muller, hollow spindle, p. c. f.  
16x6 Lodge & Shipley, quick change gear.  
16x6 Walcott & Wood, quick change gear, nearly new.  
16x8 LeBlond, pl. rest, 1 $\frac{1}{2}$  in. hole.  
17x8 Perkins, rebuilt.  
18x6 Fuller & Wilson, good, cheap.

18x8 Le Blond, fine condition.  
18x8 Lodge & Davis, compound rest.  
18x10 Johnson, h. s., p. c. f., cheap.  
20x6 Flather, overhauled, fine cond.  
21x12 Blaisdell, with 16 in. 4-j. chuck.  
32x18 New Haven, compound rest.  
33x26 New Haven, fine condition.  
36x14 Pratt & Whitney, solid spndl.  
36x25 New Haven, c. r., fine order.

#### MISCELLANEOUS LATHES.

14 in. Monitor, plain head.  
13x5 B. & O., Monitor, back geared.  
No. 21 Garvin, plain head, Monitor, 13-16 in. hollow spindle.

16 in. Monitor, plain head.  
24 in. Davis chucking, set over turret.  
28 in. Gisholt, standard turret, comp.  
2x24 in. Jones & L., flat turret.

#### MISCELLANEOUS.

Air compressor, 13x8x12 in. Curtis, belt driven, cap. 161 cubic ft. per minute.  
Bench folder, 30 in.  
Bolt cutter, 1 $\frac{1}{2}$  in. Adams, single Landis head.  
Bolt cutter, 2 in. Bement, single.  
Bolt pointer, 1 in. Adams.  
Brake, No. 2C Dries & K., 7 ft. 14 ga.  
Buffing lathe, 2 h. p. motor drive, 110 volts, d. c.  
Gear cutter,  $\frac{1}{2}$  in. Becker, spur gears only, used 3 months.  
Grinder, No. 1 Diamond, double, wheel face.  
Grinder, 20x3 in. Diamond, single wheel, wet.  
Miller, hand, No. 2 Fox.  
Millers, No. 4 Garvin, plain (2).  
Miller, vertical, No. 3 Becker, with rotary, practically new.  
Motor, 10 h. p. Crocker-Wheeler 230 v., d. c., with starting box and switch.  
Pipe mche., 4 in. Borden, complete.

Planer, 26x26x6 New Haven, 1 head.  
Planer, 36x36x8 Betts, 1 head.  
Planer, 56x45 in. x 25 ft. Betts, gear driven, 2 hds., good condition.  
Profiler, Ames, 2 spindle, fine order.  
Punch press, combination gear and fly wheel, Crosby, 3,000 lbs.  
Rivet spinner,  $\frac{1}{2}$  in. National.  
Saws, No. 4 Keystone, cold, 4 $\frac{1}{2}$  in.  
Screw mche.,  $\frac{1}{2}$ -1 1-16 in. plain automatic, high speed drilling attach.  
Screw mche.,  $\frac{1}{2}$ -1 1-16 in. Cleveland New Standard automatic, 5 hole turret, several attach., 3 years old.  
Screw machine, 2 in. Standard Cleveland automatic, 5 hole turret.  
Shaper, 17 in., gear driven, good condition, cheap.  
Square shear, 30 in. Niagara, foot.  
Tempering furnace, oil, 16 in. diam., complete with thermometer.  
Threading mche., roll, Rudolphi & K.  
Turret lathe, 13 in. No. G Gisholt, standard, complete equipment for bar work, second hand, nearly new.

A partial list of used machinery for quick delivery. Write for our complete list of new and used machinery, and state your wants; we may have it.

## SECOND-HAND MACHINERY

### FOR SALE BY

The Cincinnati Planer Co.,

Cincinnati, Ohio.

#### LATHES.

15x5 Dreeses, turret.

16x16 screw, automatic.

16x6 American, taper attachment.

#### PLANERS.

24x24x6 L. W. Pond, 1 head.

34x24x12 Cincinnati, 2 heads.

28x28x8 Cincinnati, 1 head.

36x36x14 Chandler, 2 heads.

30x30x12 Cincinnati, h. p., 2 heads.

74x56x20 L. W. Pond, 2 heads.

30x30x14 Cincinnati, 2 heads, l. p.

#### MISCELLANEOUS.

Boring and drilling machine, No. 1

Drill, 5 ft. Fosdick, plain radial, parallel drive.

Fosdick, horizontal.

Drill, 14 in. American, sensitive.

Shaper, 15 in. Springfield, crank.

### FOR SALE BY

The Osborne & Sexton Machinery Co.,

Columbus, Ohio.

#### LATHES.

2x24 in. Jones & Lamson turret.

16x10 L. & S., quick change, taper.

12x5 W. C. Young, compound rest.

26x10 Pond, compound rest, p. c. f.

14x6 Monarch, c. r., p. c. f.

48x18 Fifield, triple geared.

15x5 turret on shears.

54 in., gap, turret on ways.

#### PLANERS AND SHAPERS.

24x24x6, 1 head.

14 in. Hendey.

30x30x12 Bement-Daugherty.

20 in. Smith & Mills, back geared.

#### DRILL PRESSES.

4 spindle sensitive.

26 and 28 in. Prentiss, sliding head.

20x21 in. plain and back geared.

54 in. Sellers, comp. table, b. g., p. f.

#### MISCELLANEOUS.

Cock grinder, double.

Hammers, 450, 750, 3,000 and 5,000 lbs.

Flexible shaft drill, complete.

Toledo friction board drop.

Gas engines, 10, 15, 22, 25 and 100 h. p.

Presses, foot, No. 1 Consolidated (6).

Grinder, universal, Brown & Sharpe.

Presses, power, No. 2 Consolidated

Hack saws, Nos. 1, 2 and 3.

(2).

Hammer, steam, 1,100 lb., Morgan.

Tapping machine, Webster & Perka.

We have other second-hand machines. Mail us your requirements.

### FOR SALE BY

W. L. Perkins Jr. & Co., 136 Liberty St., - New York City, N. Y.

#### LATHES.

12x4 automatic thread cutting.

26x10 Pond, c. r., p. c. f.

14x5 Hendy, c. r., p. c. f.

26x12 Blaisdell, c. r., p. c. f.

16x6 LeBlond, c. r., p. c. f.

30x14 Bement, c. r., p. c. f.

18x5 Reed stud lathe.

32x14 Harrington, c. r., p. c. f.

20x8 Bement, c. r., p. c. f.

13 in. Bardons & Oliver, turret.

20x10 Harrington, c. r., p. c. f.

18 in. American, brass turret.

#### DRILLS.

16 in. plain wheel & lever.

40 in. Prentice, b. g. & p. f.

30 in. Aurora, b. g. & p. f.

4 ft. Bement semi-radial.

32 in. Pond, b. g. & p. f.

6 ft. Niles plain radial.

36 in. Gould & Eberhardt, b. g. & p. f.

8 ft. Bement half universal.

#### PLANERS.

24x20 in. x5 ft. Pond.

36x36 in. x10 ft. Bement, 2 heads.

23x25 in. x5 ft. 9 in. Sellers.

36x36 in. x30 ft. Pond, 4 heads.

26x26 in. x6 ft. Putnam.

46x46 in. x7 ft. 4 in. Sellers.

#### MISCELLANEOUS.

Miller, slab, 24 in. x8 ft. Bement-M.

Shear, No. 5 Long & Allstatte.

Miller, slab, 34 in. x11 ft. Newton.

Slotter, 10 in. Sellers.

Punch, No. 4 Long & Allstatte.

Slotter, 12 in. Sellers.

## SECOND-HAND MACHINERY

### FOR SALE BY

New Haven Manufacturing Co., - - - New Haven, Conn.

#### PLANERS.

34 in. square x10 ft., double heads, new (2).

40x36 in. x10 ft., double heads, rebuilt, practically good as new; immediate delivery.

### FOR SALE BY

The Motch & Merryweather Machinery Company,  
707-715 Lakeside Av., N. W., - - - Cleveland, Ohio

Branches: Detroit, Cincinnati, Pittsburg.

Refitted Machine Tools.

#### CENTERING MACHINE.

8 in. Whiton, 2 spindle.

#### UPRIGHT DRILL PRESSES.

Dallet, portable (2).

Quint, 6 spindle, turret.

26 in. Prentice, sliding head.

23 in. Bement-Miles.

#### RADIAL DRILLS.

4 ft. Box, half universal.

4 ft. 6 in. Pond, heavy.

#### GEAR CUTTERS.

32x9 in. x 4 p, Gould & Eberhardt.

#### GRINDERS.

No. 1 Cincinnati, cutter, complete.

No. 1 Leland & Faulconer, wet tool.

No. 2 Leland & Faulconer, wet tool.

Yankee A. drill grinder.

Yankee P.O. drill grinder.

No. 11 Brown & Sharpe, (2).

No. 4 Landis universal.

No. 24 Landis plain.

#### HAMMERS.

60 lb. Brady, cushion helve.

#### KEYSEATERS.

21x2 in. Morton.

#### ENGINE LATHES.

13x6 Bullard, with turret.

14x8 Flather, 4 step cone, elev. rest.

16x6 Prentice, 4 step cone, double

back geared, compound rest.

16x8 Greaves & Klusman, compound

rest, taper attachment.

18x10 Porter, compound rest.

20x8 Flather, 4 step cone, belt fd., c. r.

22x15 Pond, compound rest.

22x12 Lathe & Morse, 4 step cone,

belt feed, compound rest.

20x8 Flather, 5 step cone, belt feed,

compound rest.

24x12 Lodge & Shipley, 5 step cone,

compound rest, quick change.

48x20 Johnson, triple gd., massive.

#### POLISHING LATHES.

No. 3 Diamond.

#### MILLING MACHINES.

No. 3 Garvin, plain.

#### PLANERS.

10 in. Busch, crank, with swivel vise.

20x20x4 Wheeler, 1 head.

24x24x6 Whitcomb, 1 head.

27x5 New Haven, 1 head, (2).

30x10 Detrick & Harvey, open side.

#### PRESSES.

No. 62 Toledo, triple geared.

P-4. Ferracute.

#### SHAPERS.

15 in. Hendey.

15 in. Smith & Mills, single geared

crank.

16 in. Stepotee, crank.

16 in. Gould & Eberhardt, crank.

20 in. Hendey, friction.

20 in. Kelly, crank.

24 in. Ohio, shifting belt.

26 in. Cincinnati, shifting belt.

28 in. Hendey, friction.

32 in. Gould & Eberhardt, extension

base.

#### TURRET LATHES.

22 in. Universal, chuck fitted.

24 in. Lodge & Shipley screw mach.

28 in. Gisholt, rapid traverse.

44 in. Grant chucking lathe.

No. 22 Prentice full automatic chuck-

ing lathe.

#### MISCELLANEOUS.

Belt lacer, 16 in. Peerless.

Gap riveter, 10x36 in. Chicago, pneu-

matic.

Nut tapper, 1 1/2 in. Acme, 6 spindle.

Punch, pneumatic, No. 1 Caskey.

Punch, 8 in. Badger "G."

## SECOND-HAND MACHINERY

### FOR SALE BY

**New York Machinery Exchange, - 50 Church St., New York City.**

16 Garvin hand milling machines.

26 Garvin plain milling machines.

39 Turret lathes and screw machines.

All the above are located in a plant just purchased.

### PLANERS AND SHAPERS.

24x24x6 Pease planer.

24x24x10 Putnam planer.

36x36x17 Sellers planer.

48x48x16 Sellers planers.

52x52x20 Fitchburg planer.

16 in. Gould & E. bk. geared shaper.

### MISCELLANEOUS.

Boring mill, vertical, 7 ft. Betts, 2

heads, extension 10 ft.

Drill press, 48 in. Harrington.

Hobbing machine, 48 in. Grant.

Radial drill, 3 ft. Baush, plain, with

tapping attachment.

Radial drill, 5 ft. Baush, plain.

Slotter, 12 in. Sellers.

### FOR SALE BY

**McCabe Machine Co.,**

**P. A. McCabe, Pres.,**

**95 Liberty St., New York, N. Y.**

Boring mill, 30 in. Bullard, swivel turret, combination chuck, near new.

Boring mill, 42 in. Bullard, double head with turret, combination chuck, good.

Drill, 28 in. Prentice, geared feeds, equipped for tapping, near new.

Flat turret, 2x24 in. Jones & Lamson, with tools, good.

Gear cutter, 24 in. Becker-Brainard, automatic, cuts spur and bevels, near new.

Grinder, No. 2 Brown & Sharpe, universal, capacity 12x30 in. near new.

Lathe, 18x8 ft. Lodge & Shipley, rapid reduction type, good.

Lathe, 32 in. x12 ft. Fitchburg, modern style, good.

Planer, 28x28 in. x10 ft. Gray, double head, near new.

Slotter 12 in. Sellers, 30 in. table, with all feeds, good.

Turret lathe, semi-auto. Potter & Johnston, 2 in. hole, p. c. feed, near new.

Turret lathe, 26 in. x10 ft. Bullard, triple geared, 3 $\frac{1}{2}$  in. hole, screw cutting, ex. turret; will face 21 in. diameter; good.

"Near new" indicates condition practically good as new.

"Good" indicates condition not quite "near new."

### FOR SALE BY

**The Randle Machinery Co., 1739 Powers St., Cincinnati, O.**

### BOILERS.

Horizontal tubular, from 6 to 150 h. p., for all pressures.

Fire box, from 8 to 80 h. p.

Vertical, from 3 to 50 h. p.

### ENGINES.

Corliss, from 50 to 350 h. p.

Automatic, from 25 to 180 h. p.

Throttling, from 5 to 150 h. p.

### PULLEY LATHE.

60 in. Stevens.

### MILLER.

Duplex brass miller.

### BLOWERS.

Nos. 2 and 4 Roots.

### PIPE THREADER.

4 in. Camden.

### DRILL PRESS.

0 in. b. g., p. f. drill.

### TOOL GRINDER.

Springfield tool grinder.

### BULLDOZER.

No. 36 Pittsburg.

### AIR COMPRESSOR.

8x6x9 locomotive type.

### MISCELLANEOUS.

Heaters, pumps, tanks, blowers, exhausters, saw mill and general machinery.

Write for list. Also a full assortment of new machinery.

Sole manufacturers of the celebrated "Leader" Injectors and Ejectors. Send for circulars.

## SECOND-HAND MACHINERY

### FOR SALE BY

**The Huber Manufacturing Company, Marion, Ohio**  
**AIR COMPRESSOR.**

One Ingersoll-Rand air compressor, 10x16 1/2 x 10 1/2. Capacity, 356 cubic feet. In first class shape in every respect. Can be inspected at our factory if desired.

### FOR SALE BY

**O. L. Packard Machinery Co., Chicago, Ill., and Milwaukee, Wis.**  
**LATHES.**

22x36x22, plain rest.	36x16 Le Blond.
36x50x18 Fifield, compound rest.	72x22 comp. rest, with raising blocks
26 in. chucking.	to increase swing to 120 in.

#### PLANERS.

24x24x5 Pond, 2 heads on cross rail.	24x24x7 Pease.
24x24x6 Hendey.	

#### DRILLS.

23 in. Barnes, power feed.	5 ft. Cincinnati full universal radial.
40 in. New Haven upright.	

#### MILLERS.

No. 2 Becker-Brainard vertical.	No. 24 Oesterlein, plain.
No. 5 Garvin, plain.	

#### MISCELLANEOUS.

Die milling machine, Thurston.	Hammer, steam, 250 lbs. Bell.
Gear cutter, 36 in. Brainard.	Riveter, 1/2 in. Shuster.

### FOR SALE BY

**Wickes Brothers, West & Cedar Sts., New York City.**  
**LATHES.**

12x4 Lodge & Davis, turret.	16x5 Prentice, hollow spindle.
12x4 automatic threading, hol. spdl.	16x8 Fox lathe.
12x5 Young, hollow spindle.	18x4 Gray, turret.
12x5 Lathe & Morse, hollow spdl.	20x8 Pratt & Whitney.
12x6 Ames, screw cutting.	22x24 Fifield.
15x5 Lodge & Davis, turret.	24x8 ft. 4 in. Putnam.
15x5 Draper, hollow spindle.	26x9 Sherman, screw cutting.
15x6 Blaisdell, hollow spindle.	30x11 ft. 6 in. Wood & Light.
15x6 Jones & Lamson, hollow spdl.	36x16 Pond.
15x6 Sebastian, hollow spindle.	36 in. pulley lathes, (2).
15x8 Phoenix, screw cutting.	42 in. Pond, wheel and axle.

#### SHAPERS.

8 in. Bement, crank.	14 in. traverse.
10 in. Fitchburg.	15 in. Industrial, traverse.
12 in. back geared.	

#### DRILLS, PLAIN AND RADIAL.

10 in. post drill.	42 in. Bush combined radial and
14 in. Henry & Wright, sensitive.	vertical.
7 in. post or wall drills (6).	48 in. plain radial.
48 in. Putnam, upright, back geared.	4 ft. Universal plain radial.
4 spindle Western, upright.	5 ft. Niles plain radial.
No. 3 Garvin, four spindle, (2).	6 ft. Niles plain radial.
6 spindle gang.	

#### SCREW MACHINES.

1 in. Cleveland automatic turret.	1 in. Cleveland automatic turret.
-----------------------------------	-----------------------------------

#### PLANERS.

15x11x22 in., crank.	42x35x7 Bement, double head.
22x22x5 Putnam.	66x60x30 Bement, 3 heads.
26x24x7 Aldrich & Calvert.	66x61x25 ft. 8 in. Bement, 3 heads.
34x35x10 Pratt & Whitney.	

## SECOND-HAND MACHINERY

### FOR SALE BY

**C. A. Strelinger Co.,** - **Bates & Congress Sts., Detroit, Mich.**

Air compressor, 16x12 in. type EE-1 Ingersoll.  
Bolt cutter, 1 in. Adams, complete.  
Boring and turning mill, 38 in. Baush, with 2 swivel heads, four chuck jaw.  
Engine lathe, 16 in. x10 ft. Leblond, standard pattern.  
Engine lathe 24 in. x10 ft. Porter, with chuck.  
Milling machine, Burke, with index heads, arbor and column.  
Milling machine, No. 3 Fox, hand and power feed.  
Milling machine, No. 3 Owen, plain, with all power feed.  
Radial drill, 3 ft. Bickford tapping attachment.  
Standard No. 1 drawing and broaching press.  
Tool grinder, Gisholt.  
Press, D. G. No. 73 Ferracute.

### FOR SALE BY

**Frank Toomey, Inc.,** - **127 N. Third St., Philadelphia, Pa.**

#### MILLING MACHINES.

No. 2 Cincinnati, universal. | No. 2 Brown & Sharpe, plain (2).  
No. 1 Brown & Sharpe, universal (2). | 36 in. x12 ft. heavy slab miller.

#### HAMMERS AND RADIAL DRILLS.

1500 lbs. Bement & Miles d. f. | 250 lbs. Morgan s. f.  
750 lbs. Bement & Miles d. f. | 36 in. Morris radial.

#### LATHES.

18x8 Davis & Egan. | 25x10 Prentice.  
22x16 Pond. | 38x22 Fitchburg.

#### MISCELLANEOUS.

Boring mill, vertical, 10 ft. Betts. | Planer, 60x60x22 Dietrick & Harvey,  
Pulley lathe, 60 in. New Haven. | open side.

## THE LODGE & SHIPLEY MACHINE TOOL CO.

**Offers at a bargain the following tools, some of  
which are NOW IN USE in its own shops:**

### LATHES.

One 24 in. x 8 ft., 5 step cone head, quick change gear Lodge & Ship-  
ley lathe with turret on carriage.

Two 3½ in. x 60 in. Fitchburg Machine Works Lo-swing lathes.

One No. 3 Lodge & Shipley Rapid Reduction lathe with 8 ft. bed.

### TURRET CHUCKING LATHE.

One 30 in. x 8 ft., 4 step cone head, power feed to turret, Lodge &  
Shipley.

### PLANERS.

One 36x36 in. x 10 ft., 3 head, William Sellers Co.

One 36x36 in. x 26 ft., 4 head, William Sellers Co.

One 42x42 in. x 20 ft., single head, Putnam Machine Tool Co.

**The Lodge & Shipley Machine Tool Co.  
CINCINNATI, OHIO, U. S. A.**

Wouldn't You Like To See  
**Your Name On That Sign?**

What's the Best Way to Get it There?

There are two widely diverging methods of building up a business of making and marketing machinery.

One way is to expend lots of capital, months of time and tons of energy wholly in organizing the manufacturing end of your business, while nothing is coming in. It means costly experimenting, unforeseen delays, unavoidable mistakes—then slow deliveries till things get going right.

The other way is to *let us make your machines under a liberal contract.* We have the organization and experience to produce high-grade tools at less cost than you can make them for a long time. *This leaves you free to devote all your time and energy and most of your capital to building up your market.*

**Then**

when the commercial success of your business is an established fact, you can build your own factory—a bigger and a better one, too, because you will then have a definite knowledge of your shop requirements, you can estimate closely the output that can be disposed of profitably, and the profits you are making can go into the plant.

And in the mean time you will have established *a reputation* for the name that goes on that sign.

*Wouldn't you like to consult with us about it?*

**C. H. Cowdrey Machine Works**  
Fitchburg, Mass.

# Time Will Tell!

EACH succeeding year will testify, with growing emphasis, to your wisdom of having put in

## **"New Britain" Iron Bench Legs**

Substantial, shapely, easily planked and installed, each 8 foot section may be treated as a separate unit. Independent of wall support, with least labor and material required in construction, they are the standard of modern bench economy and durability.

*Now is the time to install these benches*

**The New Britain Machine Co.**

60 Chestnut St., New Britain, Conn.
